Southern Cairngorms

Avalanche Hazard Forecast

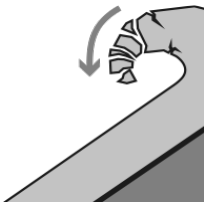
Issued 15/04/2022

FOR PERIOD 18:00HRS Fri 15/04/2022 TO 18:00HRS Sat 16/04/2022

THE AVALANCHE HAZARD WILL BE LOW

Avalanche Hazard Forecast for Saturday 16/04/2022

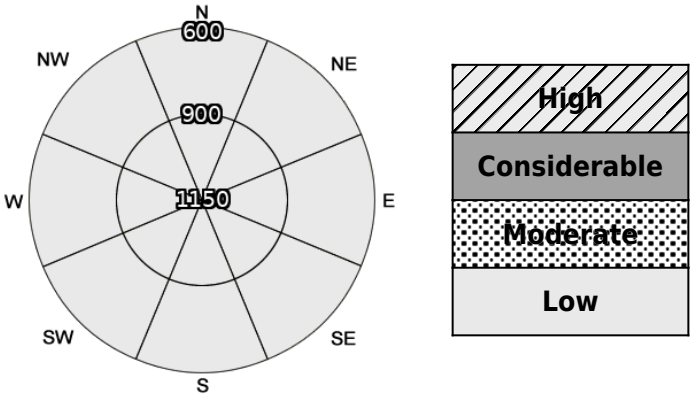
Avalanche Problems



Cornices

Forecast Snow Stability & Avalanche Hazard

The patchy snow will continue to thaw and soften but will remain generally well bonded and stable. Cornice collapse will continue to be a potential hazard. Snow cover will be very patchy with greatest amounts left on higher plateau areas and in North to East facing corries above 900 metres. The avalanche hazard will be Low.



Forecast Weather Influences

Remaining dry with the freezing level above the summits. Fresh Southerly winds throughout the day.

Comments

The mild temperatures will continue over the weekend.
