Avalanche Hazard Forecast

Issued 14/12/2023

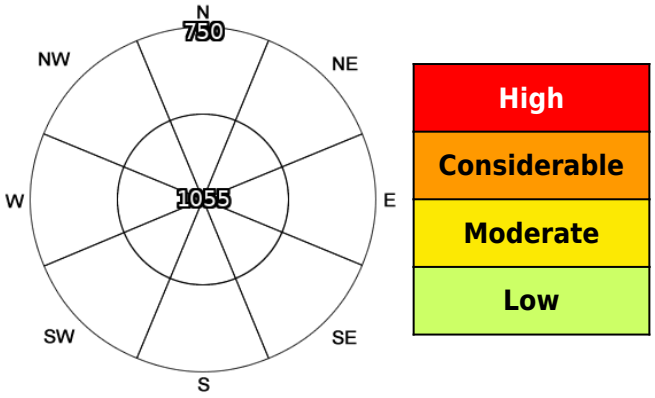
FOR PERIOD 18:00HRS Thu 14/12/2023 TO 18:00HRS Fri 15/12/2023

Avalanche Hazard Forecast for Friday 15/12/2023

Avalanche Problems

Forecast Snow Stability & Avalanche Hazard

Currently there is insufficient snow cover to present any avalanche hazard and avalanche reports will not be issued for this area. See the Torridon Blog and Mountain Information for details which will be provided by SAIS forecasters on a daily basis.



Forecast Weather Influences

Scattered showers persisting overnight. Rain at all levels through the afternoon. A strong South-Westerly airflow will become gale force during the afternoon. The freezing level will rise well above the highest summits through the morning.

Comments

Remaining mild and wet over the weekend. No snow expected. Colder beginning of next week.
