Glencoe

Avalanche Hazard Forecast

Issued 19/12/2021

FOR PERIOD 18:00HRS Sun 19/12/2021 TO 18:00HRS Mon 20/12/2021

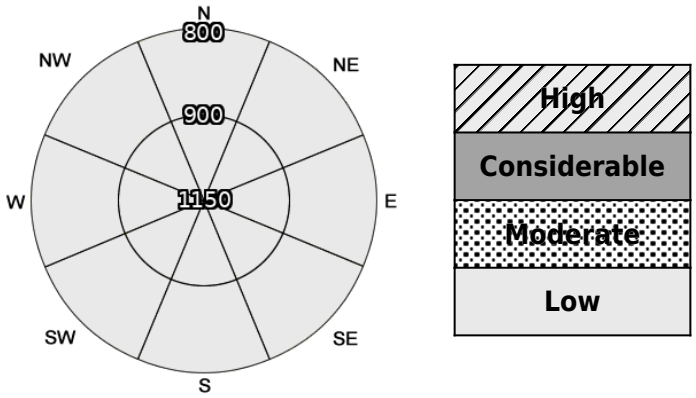
THE AVALANCHE HAZARD WILL BE LOW

Avalanche Hazard Forecast for Monday 20/12/2021

Avalanche Problems

Forecast Snow Stability & Avalanche Hazard

The snowpack will re-freeze and remain well bonded in most locations often icy or a re-frozen crust. The avalanche hazard will be Low.



Forecast Weather Influences

High pressure will continue to dominate giving dry, calm conditions, light winds will be South-Easterly. The inversion conditions will weaken introducing slightly colder summit temperatures, and also gradually lifting and dispersing the mist in the glens.

Comments

Slightly colder summit temperatures tomorrow, dry conditions set to continue for a few days to come.
