Avalanche Hazard Forecast

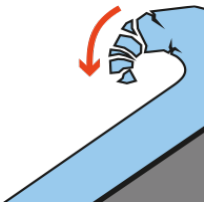

Issued 18/03/2024

FOR PERIOD 18:00HRS Mon 18/03/2024 TO 18:00HRS Tue 19/03/2024

THE AVALANCHE HAZARD WILL BE LOW

Avalanche Hazard Forecast for Tuesday 19/03/2024

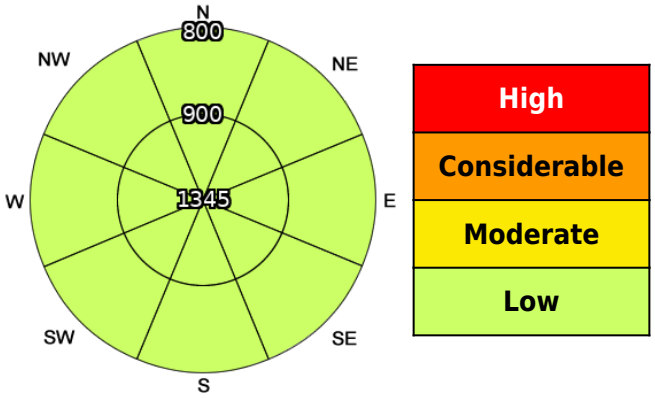

Avalanche Problems

Cornices

Forecast Snow Stability & Avalanche Hazard

The remaining snowpack will continue to thaw and diminish overnight before beginning to refreeze through the day. The snowpack will be generally stable. New snow accumulations are not expected to be significant. Cornices may be prone to collapse especially overnight in the wetter conditions. The avalanche hazard will be Low.

Forecast Weather Influences

Overnight rain at all levels will ease by dawn and be followed by isolated snow showers, as the freezing level lowers to around 800 metres. Strong to gale force Southerly winds steadily decrease and turn Westerly through the day.

Comments

Drier on Tuesday after a wet night.
