

**Avalanche Hazard Forecast for Saturday 05/04/2025**

**Avalanche Problems**

**Forecast Snow Stability & Avalanche Hazard**

There is currently insufficient snow for an avalanche hazard and no avalanche reports will be published unless conditions change. For further information please refer to the SAIS mountain blog.

**Forecast Weather Influences**

Continuing dry and clear, sunny through the day. Cool with fresh to strong Easterly winds, the freezing level only below the summits to around 700 metres overnight.

**Comments**

Shady snow patches remain firm with potential for consequential slips onto bare ground. Higher pressure conditions continue through the weekend.
