

### Avalanche Hazard Forecast for Monday 07/04/2025

#### Avalanche Problems

#### Forecast Snow Stability & Avalanche Hazard

Daily avalanche reports have ended for this season. Please refer to SAIS homepage <https://www.sais.gov.uk> for current general snowpack and mountain information. The SAIS team would like to thank you for all your support over the last winter and wish you a good summer. See you next winter!

#### Forecast Weather Influences

Continuing dry and clear, sunny through the day. Cool with frost possible overnight. Daytime winds will be light to moderate generally Westerly. Summit temperatures initially will be around 0.5 degrees Celsius rising to 6 degrees Celsius through the course of the day.

#### Comments

Old stubborn patches of snow in shaded gullies and hollows firm and icy in places, serious run out potential exists below steeper slopes with exposed rocks below.
