

## Avalanche Hazard Forecast - FOR PERIOD 18:00HRS Sun 06/04/2025 TO 18:00HRS Mon 07/04/2025

| Hazard Level        | Avalanche Probability  |
|---------------------|--|
| <b>Very High</b>    | Natural and human triggered avalanches will occur. Numerous very large, often extremely large natural avalanches can be expected.            |
| <b>High</b>         | Natural and human triggered avalanches will occur. In some cases, numerous large, often very large sized natural avalanches can be expected. |
| <b>Considerable</b> | Natural and human triggered avalanches possible, in some cases large, in isolated cases very large sized natural avalanches are possible.    |
| <b>Moderate</b>     | Very large sized natural avalanches are unlikely. Human triggering possible in indicated steep places.                                       |
| <b>Low</b>          | Only small and medium sized natural avalanches are possible. Human triggering possible in steep, extreme terrain.                            |

### Forecast Weather Influences

Dry settled weather will continue with light variable winds, clear skies overnight, sunny during the day. The freezing level will remain above the tops.

### Forecast Snow Stability and Avalanche Hazard

Daily avalanche reports have ended for this season. Please refer to SAIS homepage <http://www.sais.gov.uk> for current general snowpack and mountain information. The SAIS team would like to thank you for all your support over the last winter and wish you a good summer. See you next winter.

## Observed Avalanche Hazard - Sun 06/04/2025

### Observed Weather Influences

High pressure continues, with light South-East winds and sunshine. Cooler temperatures, but the freezing level remained above the summits.

### Observed Snow Stability and Avalanche Hazard

There is currently insufficient snow for an avalanche hazard and no avalanche report will be published today. For further information please refer to the SAIS mountain blog.

### Mountain Conditions

#### Observed Mountain Travel Conditions

Good visibility, mostly bare ground. Light winds.

#### Comments

Daily avalanche reports have finished for this season. Thanks for all your support this winter. Have a great summer, see you next winter!
