

Avalanche Hazard Forecast - FOR PERIOD 18:00HRS Thu 27/11/2025 TO 18:00HRS Fri 28/11/2025

Hazard Level	Avalanche Probability
Very High	Natural and human triggered avalanches will occur. Numerous very large, often extremely large natural avalanches can be expected.
High	Natural and human triggered avalanches will occur. In some cases, numerous large, often very large sized natural avalanches can be expected.
Considerable	Natural and human triggered avalanches possible, in some cases large, in isolated cases very large sized natural avalanches are possible.
Moderate	Very large sized natural avalanches are unlikely. Human triggering possible in indicated steep places.
Low	Only small and medium sized natural avalanches are possible. Human triggering possible in steep, extreme terrain.

Forecast Weather Influences

A cloudy day with frequent showers, these showers will be heavy and perhaps thundery at times, falling as snow above 800m. Storm force South-Westerly winds. Freezing level around 1000 metres.

Forecast Snow Stability and Avalanche Hazard

The remaining snow pack will be firm and stable throughout. Any new snow accumulations forming in wind sheltered places on Northerly to Easterly aspects above 800m are not expected to achieve significant depth. The avalanche hazard will be Low.

Observed Avalanche Hazard - Thu 27/11/2025

Observed Weather Influences

A mild day with the freezing level above the summits. Gale to storm force South-Westerly winds were accompanied by showery light rain becoming heavier in the afternoon.

Observed Snow Stability and Avalanche Hazard

There has been a significant snow loss due to the thawing conditions. The remaining patchy snow cover is well bonded and stable with the greatest amounts above 800 metres. The avalanche hazard is Low.

Mountain Conditions

Observed Mountain Travel Conditions

Winds approx 40 - 50mph, later becoming 75 mph and above presenting serious and challenging conditions with poor visibility. Moist and diminishing snowpack.

Comments

Another Stormy day in prospect for tomorrow. Lighter winds and colder temperatures forecast for the weekend.
