

Avalanche Hazard Forecast for Monday 22/12/2025

Avalanche Problems

Forecast Snow Stability & Avalanche Hazard

Insufficient snow to warrant an avalanche hazard. See mountain blog for further information.

Forecast Weather Influences

Strong East to South-East winds. Light rain showers during the morning. The freezing level is expected to be well above the summits.

Comments

A very mild day in prospect on Monday with strong to gale force South-Easterly winds expected across the summits.
