

THE AVALANCHE HAZARD WILL BE LOW

Avalanche Hazard Forecast for Saturday 17/03/2012

Avalanche Problems

Forecast Snow Stability & Avalanche Hazard

The old snowpack will become firmer and a trace of new wind-drifted snow is possible on a few Easterly aspects though this will be very thin and localised. The avalanche hazard will be Low

Forecast Weather Influences

Rain dying out overnight then colder. A few very light snow showers are possible. Winds will be moderate Westerly.

Comments

Looking a little more wintry for a (brief?) time.
