

Avalanche Hazard Forecast - FOR PERIOD 18:00HRS Fri 11/01/2019 TO 18:00HRS Sat 12/01/2019

Hazard Level	Avalanche Probability
Very High	Natural and human triggered avalanches will occur. Numerous very large, often extremely large natural avalanches can be expected.
High	Natural and human triggered avalanches will occur. In some cases, numerous large, often very large sized natural avalanches can be expected.
Considerable	Natural and human triggered avalanches possible, in some cases large, in isolated cases very large sized natural avalanches are possible.
Moderate	Very large sized natural avalanches are unlikely. Human triggering possible in indicated steep places.
Low	Only small and medium sized natural avalanches are possible. Human triggering possible in steep, extreme terrain.

Forecast Weather Influences

Moderate South-West winds will become strong and veer Westerly overnight and then slowly ease during the day. Showers, initially falling as rain at all levels, will turn to snow above around 1000 metres during the night but will return to rain at all levels during the afternoon. The freezing level, initially above the summits, will drop to around 1100 metres during the night and then rise above the summits again in the afternoon.

Forecast Snow Stability and Avalanche Hazard

The patchy older snowpack will remain generally stable. Some fresh unstable windslab will be deposited mainly on North-East to South-East aspects above 1000 metres but accumulations are not expected to be significant. The avalanche hazard will be Low.

Observed Avalanche Hazard - Fri 11/01/2019

Observed Weather Influences

It was a mild day with the freezing level above the summits. There were moderate Westerly winds and occasional showers.

Observed Snow Stability and Avalanche Hazard

The remaining snowpack is limited in extent and generally stable. The avalanche hazard is Low.

Mountain Conditions

Observed Mountain Travel Conditions

Wet patchy snowpack. Cloud base around 900 metres. Winds around 20 mph .

Comments

Looking colder from the middle of next week.
