Avalanche Hazard Forecast - FOR PERIOD 18:00HRS Mon 21/01/2019 TO 18:00HRS Tue 22/01/2019

Hazard Level	Avalanche Probabilty
Very High	Natural and human triggered avalanches will occur. Numerous very large, often extremely large natural avalanches can be expected.
High	Natural and human triggered avalanches will occur. In some cases, numerous large, often very large sized natural avalanches can be expected.
Considerable	Natural and human triggered avalanches possible, in some cases large, in isolated cases very large sized natural avalanches are possible.
Moderate	Very large sized natural avalanches are unlikely. Human triggering possible in indicated steep places.
Low	Only small and medium sized natural avalanches are possible. Human triggering possible in steep, extreme terrain.

Forecast Weather Influences

Snow showers are expected with the freezing level gradually lowering to around 300m. Winds will moderate and become mainly South-Westerly

Forecast Snow Stability and Avalanche Hazard

New areas of unstable windslab will form in sheltered locations. Greatest accumulations will be on steep North, North-East and East facing slopes and gullies above 900m. Other sheltered location will also be affected. Elsewhere the snowpack will be unconsolidated and generally stable. The avalanche hazard will be Considerable

Observed Avalanche Hazard - Mon 21/01/2019

Observed Weather Influences

Increasing in strength South-South-Westerly winds with some some showers above 600m.

Observed Snow Stability and Avalanche Hazard

Localised areas of poorly bonded snow are present. Greatest accumulations are at the tops of North-West, North, North-East and East facing slopes and gullies above 1000m. Some other sheltered locations are also affected. Elsewhere the snow cover is thin and generally stable. SHallow The avalanche hazard is Moderate

Mountain Conditions			
Observed Mountain Travel Conditions	Strengthening SSW winds with poor visibility over the summits		
Comments	Remain cold with snow showers at most levels. Winds easing
